

AERON'S
FOUNDATION

Our vision is to build a future free from the suffering caused by sudden unexpected infant death (SUID).

HOW WE CAN HELP YOU

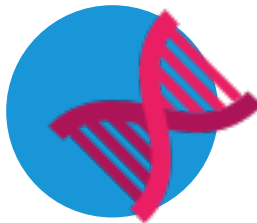

Support Caregivers

We educate families and other caregivers about unexpected infant death (SUID/SIDS) and provide information and referrals to those who are grieving.

Assistance for Funeral Costs

Planning a funeral after a devastating loss is difficult. We offer financial assistance to help get you through this process.

Assistance for Genetic Testing

Up to 15% of SUID may have an identifiable cause. Genetic testing is usually not covered during autopsy but we can assist with this cost.

Support Siblings

Siblings process loss differently based on their age. We created a children's book about a young girl who lost her baby brother to create better understanding for siblings and to promote healing.
